

# おうちであ・そ・ぼ! vol.5

Himawair Preschool

April 4<sup>th</sup>,2020

I finally found all the "Signs of Spring" from our previous card outside! The last thing was the dandelions. It is getting much warmer now, so I hope you will find all of them too! I recently have been watching birds that are making a nest under our entrance porch and a squirrel getting dry grasses for making her nest, too. That's exciting to watch! I've attached "Let's find the signs of Spring! 2", so let's go out (maybe the state park) and find more "SPRING!"

## **MANY WAYS TO PLAY WITH PLASTIC EASTER EGGS!**

Put some snacks inside daily, it makes the kids excited!

Put some small toys and do a Guessing game!

If you put in waterproof toys, kids can play in the bathtub!

Put the eggs in an egg carton, then count them or pretend to be the shopkeeper!

Try to spin like a top! Hold the egg with both hands and push with your thumbs!

Put threads through the holes and make an outside decoration!

Put dry beans or beads and close with tapes. Let's dance with maracas!

Separate and mix up the egg halves, then play a matching game!

Plastic egg are so simple, so there are tons of fun ideas! You can search "plastic Easter egg crafts" to find more fun stuff. Enjoy!

## How to make Rice Krispy Treats!

We made this yummy snack at the school Valentine's Day party and kids loved it! This fresh treat tastes much better than any boxed ones! You can shape it like an Easter bunny or put inside of Easter eggs!

<Ingredients> Butter (Olive oil works, too): Tbsp 1½      Marshmallows: half a bag (5oz)  
Rice Krispy cereal: 3cups      Food coloring (optional)

<Directions>

1. In the saucepan, melt butter over low heat.
2. Add marshmallows and stir until completely melted (you can add food coloring). Remove from the heat.
3. Put some oil on your hands and shape the treat as you like: It is good to eat when still fresh!

\* It is hard to go shopping these days, but if you have a chance to buy ingredients, please try this with your kids

We were planning our Egg Hunt at school after the Spring break. Kids find 2 eggs which has each kid's name written in Japanese for Niji/Kotori class, or Japanese and English for Sora/Hana classes. I hope you can try this way too, at home.
